

Amantii BI-72-DEEP

BI-72-DEEP with Design Specialties surround in Aztec Gold

FOR IMMEDIATE RELEASE

BI-72-DEEP is a VESTA Award Finalist and WINS "Attendees Choice Award" at 2014 HPB Expo

Salt Lake City, UT – Amantii is honored that the BI-72-DEEP was chosen as a finalist in the prestigious Vesta Awards and has won the Attendees Choice award at the 2014 HPB Expo. This is the second year in a row that an Amantii Electric Fireplace has won the Attendees Choice Award.

The BI-72-DEEP is 12" in depth and features the latest 'Dual Flame' technology for a truly dynamic and remarkably life like flame. The Fire & Ice series feature a unique multi-color flame. With just a simple click of the remote control the user can rotate through and choose from three vibrant colors: Blue, Purple or Golden Yellow.

This model model is designed to be built-in and allow for the finishing material (drywall, stone, tile, etc) to be built right down to the glass edge. However, that application is not always desirable or available so the included surround could be used as an alternate finish option. Perfect for locations where running costly gas lines and venting are not possible. Comes with 6 large glass nuggets, blue & white diamond shaped media and a 6 piece log set.

Why Electric?

Consumers are looking for a lower cost option to gas or wood burning fireplaces. Amantii's electric fireplaces fill that need with high quality, well designed products that provide an artistic element above and beyond the basic functions of fire display and heat. "These units offer maximum flexibility without venting or trying to run gas lines throughout the house," Brian Richards, President of Amantii Electric Fireplaces explains, "The cost savings to consumers are tremendous."
